

The 13th SEA Regional Scientific Meeting of the International Epidemiological Association and International Conference on Public Health and Sustainable Development

About the conference

The 13th Southeast Asia Regional Scientific Meeting of the International Epidemiological Association (IEA) joined with International Conference on Public Health and Sustainable Development will be held on **2-5 October 2018** in **Sanur Prime Plaza, Bali, Indonesia**.

The conference aims to overview what epidemiologists and public health professionals can do to enhance the implementation of evidence-based health policy for SDGs achievement. The conference will be a forum for epidemiologists, public health professionals and public health policy makers in knowledge sharing to improve their capacity and contributing to the achievement of SDGs particularly in their respective countries and Southeast Asia Region in general.

Speakers

Prof. Umesh Kapil
(South East Asia Regional Councilor of the IEA)

Prof. Syed Aljunid
(Kuwait University)

Prof. Virasakdi Chongsuvivatwong
(Prince of Songkla University)

Siyan Yi, MD, PhD
(National University of Singapore)

Theme

*Enhancing Evidence-based Health Policy for
SDGs Achievement.*
